# SOLDIER

A FILM BY DANIEL J PICO

"Soldier" is a short experimental film told in performance poetry outlining a day in the life of a soldier at the front lines of the Iraqi war.

*"Soldier" is raw, visceral, furious and brilliant. Pico and Bianchi have crafted a perfect film. I wish every American would see "Soldier" – especially those who voted to send America's youth into the Iraq slaughterhouse"*

- Phil Hall - [FilmThreat.com](http://FilmThreat.com)

*"A+...David Bianchi...reciting the lines with such intensity and emotion, the goose-bumps won't leave your neck until the piece is over."*

- [Taste Like Chicken.com](http://TasteLikeChicken.com)

*"While the film is shocking, even infuriating... it reinforces the reason why the stripes are red and why Americans will continue to risk their lives in defense of their nation."*

- Cpl. Patrick J. Floto (USMC)

*"It's a moving, energetic, and extremely effective performance piece."*
